Never miss a call. Capture every lead. Let AI handle the front desk — while you focus on running your business.

✓ Instant setup

✓ No AI expertise needed

✓ GDPR compliant

✓ Works 24/7

# What is AI Receptionist by Clear Logic Assist?

AI Receptionist by Clear Logic Assist is a managed AI receptionist service that answers your business calls and website chats in real time — 24 hours a day, 7 days a week. It speaks naturally, captures leads, books callbacks and sends email summaries, all without any human intervention.

## Telephone answering

Connects to your existing business number or a dedicated DDI. Answers every call with a natural AI voice in your brand persona.

## Website chat

An embeddable widget for your website. Visitors chat or call in real time — the same AI, the same persona, the same lead capture.

## Lead capture

Automatically extracts name, phone, email and intent from every conversation and logs them to your console as structured leads.

## Appointment requests

Takes appointment requests and sends confirmation emails to both the prospect and your team — no calendar integration required.

## Warm transfer

When a caller needs a human, the AI bridges the call to your team member in real time — no hold music, no lost context.

## Live console

Web-based dashboard shows live sessions, transcripts, leads, email logs and usage in real time. Accessible from any browser.

*"The assistant handled 47 enquiries over the weekend without a single missed lead. Our sales team arrived on Monday to a full inbox."*

— Early access customer, property management, Malta

# From enquiry to lead in seconds

The entire flow — from the moment a call or chat arrives to the moment your team sees the lead — takes under 30 seconds.

1

## Customer calls your number or opens your website chat

The AI receptionist picks up instantly — no ringing, no voicemail, no wait. It greets the caller with your brand name and persona.

---

2

## Natural conversation in real time

The AI understands context and intent. It answers questions about your services using prompts you configure. All in natural, flowing speech.

---

3

## Lead captured automatically

Name, phone, email and appointment details are extracted and saved to your console the moment the caller provides them — no manual entry.

---

4

## Email notification sent immediately

Your team receives an email summary. The prospect receives a confirmation. Both are sent within seconds of the conversation ending.

---

5

## Full transcript available in console

Every conversation is transcribed, summarised and tagged with sentiment and intent. Review, export or follow up directly from the dashboard.

# Who is it for?

Any business that receives inbound enquiries by phone or website can deploy AI Receptionist in minutes.

## Property & Real Estate

Handle viewings requests, qualify buyers and tenants, answer availability questions — around the clock, even on weekends.

## Medical & Dental Clinics

Book appointment requests, answer FAQ about services and opening hours, capture patient details and forward to reception staff.

## Legal & Professional Services

Screen enquiries, capture caller information, answer general questions about service areas — without tying up fee earners.

## Hospitality & Tourism

Answer availability and pricing questions, take booking requests, handle multi-language enquiries from international visitors.

## Retail & E-commerce

Handle order status enquiries, return requests, product questions and opening hours — freeing staff for in-store customers.

## Financial Services

Qualify leads, book consultations, answer regulatory-safe FAQs — with full conversation logging for compliance.

## Simple, transparent pricing

Usage-based billing. No setup fees. No long-term contracts. Start with a generous trial credit.

# €100

Trial credit — included on every new account

Use your trial credit to run real conversations, capture real leads and evaluate the platform with zero financial risk. Credit never expires.
